

## **Auricular Prosthetics Course**

### **Day 1**

Course Introduction  
Implant Planning and Clinical Cases  
Introduction to Magnets in Facial Prosthetics

### **Coffee Break**

Demonstration – Ear Impression with Magnets  
Participants take Impressions  
Demonstration – Making Substructure  
Participants Construct Substructure  
Demonstration – Carving Wax Ear

### **Lunch**

Participants Carve Ear

### **Afternoon Break**

Demonstration – Trying Baseplate and Attaching Ear  
Participants Finish Carving and Attach Ears to Baseplate

### **Day 2**

Demonstration – Moulding Ear  
Participants flask ears  
Demonstration- Mould Preparation

### **Break**

Silicone Technology Lecture and Demonstration

### **Lunch**

Demonstration- Colour Matching  
Participants Colour match Silicone

### **Afternoon Break**

Demonstration – Deflasking and Trimming Ear

### **Day 3**

Participants deflask and trim ear  
Demonstration- fitting ear, extrinsic colouration and sealing  
Participants extrinsically colour and seal ears  
Final Fitting of Auricular Prostheses

### **Break**

Demonstration of Eskin Spectromatch System  
Participants Produce Nose Using Eskin System

### **Lunch**

Demonstration of Gel Technique  
Participants Create Nasal Prosthesis using Gel Technique  
Q & A Session, Certificate Presentation

### **Course Close**
