

Product Focus- Skin Preparation

B-100 Skin-Prep Wipes

A waterproof skin barrier which protects the skin from irritation. This barrier ensures a firm hold and positive adherence by enhancing the power of the adhesive. Skin-Prep wipes dry completely when applied and are easily dissolved with soap solutions.

4720 Comfeel Barrier Cream

This barrier cream is excellent for applying to sensitive areas of the skin before applying adhesive. Soothes irritated skin and moisturises dry skin.

Meet the Staff- Magnet Production

Project Focus- Trauma Simulation

We are currently working on a complex Trauma Simulation whole body model. Here are pictures of the model's airway evolving!

This is part of an exciting project with PDR Surgical Design, MBI (Wales), Trauma Simulation DSTL and Defence & Security Accelerator.

PDR Surgical Design used 3D printing technology to create the model's skull. Custom silicone formulated by MBI (Wales) to create model's jaw.

News- Conferences that Technovent will be attending in 2018.....

- International Anaplastology Association (IAA): 2nd-5th May 2018, Quebec City, Canada.
